Curriculum Continuous Improvement Process

1) Where are we now? Strengths, Weaknesses, Opportunities, Threats

2) What is our next action? Improvement project or develop curriculum (rare & infrequent)

3) What do we want to accomplish? Develop a project plan

4) How do we make that happen successfully? Implement the action plan

On-going Refinement Process

Formal Review & Development Process

Step 1: Research evidence-based practices and study current practices

Step 2: Develop Intended Curriculum

Step 3: Professional Development and Implementation

Only if formal review & development is needed
